OFFICE OF THE DISTRICT MAGISTRATE CHIKMAGALUR DISTRICT.

Notification dated..... November 1972.

No. J1. MAG. 242'69-70. Whereas a draft of the order called the licensing and controlling of the Public Amusement an places of Public Amusement order 1961, was published as required by sub-section (6) of Section 31 of the Mysore Police Act 1963 (Mysore Act 4 of 1964) in Notification of J1. MAG. 242 C. 69-70 dated 24th April 1972 on pages 2654 to 2666, of Part III 2 o *Mysore Gazette* dated 27th July 1972 read with corrigendum of even number dated 10th August 1972 published on 24th August 1972 in Part III-2 of the Gazette inviting objections and suggestions from all persons likely to be affected thereby on or before 30th September 1972.

Whereas the objections and suggestions received on the said draft have been considered by the Government.

Whereas, and previous sanction of Government as required by clause (ii) of sub-section (2) of Section 31 of the Mysore Police Act 1963 (Mysore Act 4 of 1964) is communicated by Government in their letter No. HD 131 CNP 70 dated 10th/13th November 1972.

Now, therefore, in exercise of the powers conferred by sub-section (1) of Section 31 of the Mysore Police Act 1963, the District Magistrate, Chikmagalur District hereby makes the following order, namely:

1 This Order may be called the Licencing and controlling of Public Amusements and Places of Public Amusements Order, 1969.

2 In this Order unless the context otherwise requires:—

(1) "Premises" means any tent, erection, building or enclosure to which the Public are admitted to witness any performance for public amusement on payment of money.

(2) "Board" means the Board appointed by the State Government under sub-clause (iii) of Clause (x) of sub-section (1) of Section 31 of Mysore Police Act, 1963,

3 No premises shall be opened are allowed to remain open for use as a place of public amusement unless the person being the owner, tenant or occupier thereof shall have obtained a licence thereof.

4 The Licencing Officer for premises shall be District Magistrate, Chikmagalur District.

Provided that in the case of 'Yaxagana' (Bailata) Dramas, the Taluka Magistrate having jurisdiction over the area may grant a licence.

5 In case any Licencing Officer, through illness, absence from the area for which he is empowered or other necessary reasonable cause, is unable to exercise his powers or perform his duties the powers and duties of Licensing Officer may be exercised by such officer as the Licensing Officer may by special or general order appoint in this behalf.

6 In the case of tent or other temporary erections, a comprehensive licence may be granted by the Licensing Officer for using such erections on condition that the general arrangement of such erection shall remain as approved by him.

Provided that the Licensing Officer before granting a comprehensive licence may require the production of certificate from the Public Works Department signed by the Assistant Engineer concerned that the tent or temporary erection is in all respects suitable for use as a place of public amusement. The Licensing Officer may, if he thinks it necessary have the certificate countersigned by the Executive Engineer of the Division concerned.

7 (1) The fees for a licence or renewal of a licence inclusive of fees of inspection by an Office of the Public Works Department (before the grant of the licence) shall be such fee as may be notified by the District Magistrate from time to time.

(2) The rates which would be in force until fees are notified under sub-rule (1) shall be as under:

(*a*) for a permanent theatre or other permanent building to be used principally as place of public amusements according to the number of seats provided therein as under:—

	No. of Seats	*Licence Fee*
i)	Upto 200	Rs. 50
ii)	200 to 500	Rs. 75
iii)	500 and over	Rs. 100

(*b*) for a quasi permanent building or a temporary erection to be used principally as a place of public amusement according to the number of seats provided therein as under:

	No. of Seats	*Licence Fee*
i)	Upto 200	Rs. 15
ii)	200 to 500	Rs. 20
iii)	500 and over	Rs. 25

(c) for a temporary erection when the Licencing Officer does not require any certificate in respect of the structure according to the number of seats provided therein as under :

No. of Seats	*Licence Fee*
i) Upto 200	Rs. 3
ii) 200 and 500	Rs. 5
iii) 500 and above	Rs. 7

(d) for a permanent building not used principally as a place of public amusement but to which the public are admitted to witness any public amusement on payment of money.

(i) When the Licencing Officer requires a certificate from a Public Works Department Officer-Rs. 20.

(ii) When the licensing Officer does not require such certificates—Rs. 10.

(3) A licence for a premises mentioned in clauses (a) and (d) of sub-rule (2) may be granted or renewed for any period not extending beyond the 31st day of December of the year for which it issued. A licence for the premises mentioned in clauses (b) and (c) of sub-rule (2) may be granted for any period not extending beyond the end of the quarter in which it is issued.

8 The fees for making any alteration or addition in a licence shall be Rs. 1 and for duplicate copy of such licence shall be Rs. 2.

9 Every application for a licence for premises shall contain in addition to any other particular which the licensing Officer may require (a) the name and address of the responsible manager of the premises and (b) if there is any electric installations on the premises, the name and address of the qualified electrician in charge of it.

10 (1) No lincence for premises shall be granted unless a certificate relating to the location of the theatre or other place of public amusement has been obtained under sub-rule (4).

(2) Any person desirous of erecting a building or a tent or other temporary erection on any site or making any alterations or modifications to any existing premises for the purpose of using it as a place of public amusement shall given on intimation to the Licensing Officer of his intention to do so.

(3) On receipt of such intimation, the Licensing Officer may if he thinks it necessary notify the public of such intention in such manner as he deems fit, for the purpose of inviting objections.

(4) Without prejudice to his right to refuse to grant a licence under rule 13 the Licensing Officer may, after considering the objections, if any, grant a certificate that there is no objection to the location of the theatre or place of public amusement on the site or at the premises referred to in sub-rule (2) or refuse to grant such certificate.

11 (a) No new structure to be used as a permanent or quasi permanent theatre or building shall be allowed to be constructed for the use principally as a place of public amusement unless the plans have been certified by a licenced or qualified architect or engineer that the design is according to accepted standards and general approval is accorded by the Executive Engineer, Public Works Department who should see that the requirements of Rules 24 and 25 have been provided for. In the case of an existing building to be modified with additions and alterations for use principally as a place of public amusement, the plans must be certified by a licenced or qualified architect or engineer and approved by the Executive Engineer, Public Works Department.

(b) At least one month before an application is made for the grant of licence for a permanent or quasi-permanent theatre or building for use principally as a place of public amusement, the applicant shall submit a detailed plan of the theatre or building to the Executive Engineer, Public Works Department supported by a certificate of sound construction according to accepted standards, from the licensed or qualified architect and/or engineer who designed and/or supervised the construction. The Executive Engineer concerned shall then accord general approval subject to the requirement of Rules 24 and 25 being complied with.

12. (1) A licence for premises shall be in the Form in Schedule 'A' hereto appended, with any necessary alterations or additions and shall not be transferable. If the person to whom it has been granted dies or becomes mentally incapable or otherwise disabled the persons carrying on the business shall not be liable to any penalty for carrying on the business during such reasonable time as may be necessary to admit of his making on application for the renewal of the licence.

(2) The amusements shall ordinarily be permitted between 6-00 a.m. and 12-00 midnight. But in the case of mythological, educational and other type of classical amusements the licencing authority may permit such of the amusements upto 4-00 a.m. subject to the provisions of the Mysore Shops and Establishment Act, 1961: provided that in the case of "Yaxagana" (Bailata) dramas the licencing authority may permit such performances upto 6-00 a.m.

13. It shall be in the discreation of the Licencing Officer to refuse to grant a licence for any premises proposed to be used as a place of public amusement, if such place appears to him likely to cause obstraction inconvenence, annoyance, risk, danger or damage to residents or passers in the vicinity of such premises.

14. Either the holder of a licence or some person or some one of several persons whom he has nominated as manager or managers and whose name or names have been entered as such in the licence, shall be present at the permises to which the licence relates during the whole time for which permises are open to the public.

15. If the Licencing Officer so directs in the licence no person shall smoke and no holder of a licence or his manager or managers shall permit smoking during the performance either on stage, except so far as it may be part of the performance, or in the auditorium.

16. During a performance of exhibition or an interval of a performance or exhibition or a public amusemant :
(i) no person shall
(ii) no holder of a licence for premises shall allow a person to : hawk in the auditorium, or sell or supply any eatables or drinks to any member or the audience in the auditorioum ; or distribute or sell whether for consideration or not any article or thing to any member of the audience in the auditorium.

17. No person shall at any time spit in any part of such premises except in the spittoons provided for that purpose.

18. (i) No holder of a licence for premises under these rules shall admit to any part of the auditorium a greater number of persons than the maximum number authorised in the licence to be accommodated in such part.

(ii) The licensee shall issue tickets bearing serial numbers and date and number of the performance on the foils and counterfoils. After each performance the ticket books shall be marked closed on the last counterfoil issued.

19. No holder of a licence for premises shall, during any performance or exhibition, use open or naked lights in any part of the premises without having previously obtained written permission from the Licencing Officer.

20. It shall be in the discretion of the Licencing Office at any time to cancel or suspend any licence for premises granted under these rules, and to direct the person keeping any such premises to close such premises either permanently or temporarily or otherwise to act with reference thereto, in order to prevent any obstructions, inconvenience annoyance, risk, danger or damage to the residents or passed by in the vicinity or for the maintenance of public safety and the prevention of disturbance in such premises or for the purpose of the maintenance of law and order or to prevent the outbreak of any disease or spreading thereof the locality or in the neighbourhood and every holder of a licence for premises under these rules shall forthwith comply with any such direction given.

21 Free access to theatres and other places of Public amusement shall be given at all hours to the Officers and for the purposes mentioned below.—

1 The Licensing Officer or any officer authorised by the licencing Officer generally for the purpose of carrying out his duties under these rules and in particular for the purpose of satisfying himself that perforamance does not fall under any of the clauses of Rule 39 :

2 Any Police Officer who is required by a general or special order of the District Superintendent of Police or the licencing authority to attend the same :

3 The Executive Engineer of the division of the Public Works Department. Assistant Engineer or the Electric Inspector to Government or his Assistant for the purpose of seeing that provisions of these rules in so far as they relate to the suitability of the building as a theatre or place of public amusement or to the electric installations or apparatus, therein are being duly observed :

4 The Chairman or any mamber of the Board shall be given free access to any premises where a Thamasha performance is to be or is being performed or exhibited.

22 No holder of a licence for premises shall allow any person to hold any public performance of a stage play or a dancing, singing or music or any other public exhibition or any diversion, or game in such premises unless in respect of it a performance licence has been obtained by that person from the Licensing Officer.

23 No licence for premises shall be granted unless the conditions prescribed in the following rules as regards the means of entrance and exit, the arrangements for ventilation and precautions against fire, are fulfilled.

24 (*a*) Two sparate exits not opening on the same throughfare or public passage, shall be provided from the stage, from auditorium floor and from every tier which accommodates not more than 500 individuals, where the auditorium floor or any tier accommodates more than 500 individuals exits shall be provided at the rate of one for every 250 individuals and one for any less number in excess. Each of such exits shall be of not less than five feet width between the leaves of the door, when open : provided that in the cases of premises constructed before these rules come into force the Licencing Officers may in this discretion accept any other arrangement of exits which in his opinion is likely to answer the requirements or safety.

(*b*) No part of the auditorium shall provide accommodation exclusive of passages at a bigher scales than 20 persons per 100 square feet.

(*c*) A clear passage or gang-way of not less than four feet wide shall be formed at the sides and down the centre of the seating in every part of the auditorum in such manner that no seat shall be ten or more feet away from a passage or gangway measured in the lines of seating.

(*d*) All door ways and corridors for the use of the Public shall be atleast four feet six inches wide in the lear. All doors must open outwards to lie flush with the outside of the wall.

(*e*) All doors used by the Public may be kept closed but not bolted during a performance of exhibition provided an attendent is placed in charge of each such door whose daty it shall be to throw open the doors in cases of emergency.

(*f*) Every lamp shall be provided with an iron or tin sconce bending over the chimney to prevent sparks flying upwards. Hanging lamps shall be suspended by iron rods or wire attached to the lamp and atleast five feet long. All wall lamps shall be on metal brackets atleast 18 inches long. The lamp shall no be less than seven feet from the ground and not less than two feet below the ceiling, the metal protector over the top of the lamp.

(*g*) The use of kerosene or other mineral oil of less than 150 degrees flash point as well as that of open lights and torches (masbals) in or near the premises is prohibited.

(*h*) When gas light is employed in a theatre, there shall be seperate and distinct gas services and meters for (a) the stage, (b) the auditorium, and (c) Staircases corridors and exists. All gas pipes shall be made of iron or brass.

(*i*) Fire buckets shall be provided at each performance in such number as the licensing officer may direct and shall be kept at all times full of water, which shall be changed regularly (say at least twice a week). A pinch of lime shall be added to such water to prevent the breeding of mosquitoes buckets of dust or dry sand also shall be provided and the attention of public shall be directed to them by placards legibly and fixed immediately above them.

(*j*) In the case of permanent or quasi permanent theatres within the limits of Corporation or Municipality, suitable urinals as approved by the Corporation or Municipality at the rate of not less than 2 per cent and latrines at the rate of not less than 1 per cent of the number of individuals to be accommodated in such premises shall be provided in suitable places. Seperate Accommodation shall be provided for males and females. They shall be so constructed as to cause no nuisance.

Provided that in the case of any such theatre constructed before this Order comes into force if the licensing Officer, is satisfied that the urinals and latrines at the rates prescribed above cannot be provided such theatre may contain provision for urinals and latrines at the rates prescribed immediately before this order came into force.

(*k*) No staircase, landing looby, corridor or passage not being an internal passage between rows of seats interended for use as an exit shall be less than five feet wide.

(*l*) All exists and other doors for the use of the public shall be indicated by notices in white letters 150 mm. high upon a black ground painted on the door atleast six feet above the floor or shall have the word "Exit" painted red at the top in letters of above said light and illuminated by the light which shall be kept burning during the whole time the pablic are in the premises.

(*m*) The words "No exit" in English or Kannada or in any language understood in the locality, shall be similarly painted upon all doors in sight of the audit ruim which do not lead to exits.

(*n*) In cities and towns where there is a public telephone the building shall have a telephone connection.

(*o*) Such premises whether quasi permanent or permanent shall be provided to the satisfaction of the licensing authority with a sufficient number of spittoons in suitable places for the use of the public. The spitting shall contain a strong disinfectant and shall be emptied from time to time. Notices for using such spittoons shall be displayed in prominent parts of such premisses.

(*p*) Every building constructed after these rules come into force, which is to be used as a placed of public amusement, shall have ventilators, roofs, galleries and staricases constructed of fire proof materials as far as possible.

(*q*) Partitions in 'boxes' shall be constructed of fire proof materials.

(*r*) No staircase of a greater proprotion of rise to tread than 2 to 3 with minimum tread of12"shall be allowed

(*s*) Window and door area shall not be less than one fifty of the total floor area and windows shall be of such dimenions in such number and in such situation as the public Works Department Officer concerned shall direct If there is electric installation on the premises, machanical appliances such as exhaust fans shall be used to expel air at the rate of 50 cubic feet or more per person, at least three times in an hour Where such machanical appliances are adopted the public Works Department Officer may in consultation with the Special Officer of the Municipality or Officer, of Health Department concerned, relax the condition laid down in this clause regarding the total door and window area.

25. In every permanent or quasi permanent theatre, there shall be provided on the top of the procenium wall or in some other place to be approved by the P W. D Officer concerned two cisterns (connected with the fire service in such premises which shall be kept always filed with water, each of the cisterns shall be capable of containing aleast 250 gallons of water for every 100 individuals of the pubic to be accommodated in such premises. These cisterns shall be fitted with an outside indicator suitably placed so as to show clearly the depth of the water therein and the water must be kept clean and free from sediment and covered over, and the cisterns shall be cleaned once in every year. Suitable arraugements for storing water should also be made in temporary theatres (*i. e.*, tents, pandals and such other places).

26. All generators for acetylence gas shall be kept out side the building or other erection containing the auditorium.

27. No work of electric installation in such premises shall be commenced until the sanction of the Electrical Inspector to Government has been obtained to such work. Such electric installations must conform to the rules contained in schedule 'C' to these rules and shall be carried out to the satisfaction of, and after completion shall be passed, by the Electricity Inspector or an Assistant Electric Inspector.

28. In all such places where piped water supply is available all such premises shall be provided with a sufficient number of hydrants, the number which of shall be fixed by the Municipality, and where there is no Municipality, by the licencing authority each of a diameter not less than two and half inches. Such hydrants shall be connected by a main of atleast three inches diametre with the high pressure, street main of the Municipality water works, and each of such hydrants shall be furnished with not less than 50' length of hose with the regulation couplings of the Municipality, Fire Brigade and with nozzles attached thereto. Such hose shall, when not in use, be fastened on iron saddles fixed above the hydrants. Provided that if such premises have been licenced before the coming into force of this order the licencing authority shall fix a period of not less than six months and not exceeding two years within which the provisions of these rules shall complied with.

29 No person shall take part in or assist in conducting any preformance which is prohibited under Mysore Dramatic Performances Act, 1964.

30 The Manager of any body of persons giving a dramatic performance shall, on demand made by the licensing officer or by any police Officer of or above the rank of Sub-Inspector who is authorised by general or special order made by the licensing officer in this behalf, on any day upon which a performanance is being or is intended to be performed or given, produce for inspection a copy of the play.

31 No person shall hold on any premises any public performanance of a stage play or of dancing, singing or music or any other public exhibition or any diversion or game to which the public are addmitted on payment of money, unless and until he has obtained a preformance license nor shall any person who has obtained a performance licence hold such publicpertormance or public exhibition in any premises which have not been licensed. A performance license shall bein Form 'B' hereto appeaded with necessary alterations or additions.

32 Subject to such orders as may be made by the District Magistrate fixing the hours during which no music shall be played at such places of public amusement, no person holding a performance licence under these rules shall play or allow any music to be played in connection with the preformance near or outside a place of pulic amusement between the hours of 10 p.m. and 6 p m. or between such hours as may, by special order in particular causes, be fixed by the licensing officer.

Explanation :—For the purpose of this rule 'music' includes the playing of gramophones, phonographs, radios amplifiers, radio gramaphones, bands, tom-tom-drums, symbols and other similar instruments.

33 (1) The licensing Officer for performances shall (i) at the head quarters of a district be the Superintendent of Police or any other Police Officer authorised by him not being below the rank of an Inspector of Police, provided that in case of 'Yaxagana' (bilat) dramas, the Taluka Magistrate of the area may also issue such a licence.

(2) The licensing officer for performance shall in every case be subject to the control of the District Magistrate who shall himself have all the powers of the licensing officer for performance.

34 In case of any licensing Officer, through illness, absence from the area which is empowered or other necessary or reasonable cause unable to exercise his powers or perform his duties, the powers and duties of licensing officer may be excercised by such officer as the licensing officer may, by special or general Order, appoint in this behalf.

35 When a performance or Exibition of any stage play, dancing, singing, music or any diversion or game is intend to be provided by a body of individuals in any premises, a performance licence shall be applied for on behalf of such body by some person acting as the constitutes manager of such body and such manager shall be responsible for any breach or violation of these rules committed on such premises by any member of such body as if such branch or violation was committed by himself.

36 The performance licence shall state, (1) the title of each item on the programme and (2) the general description of such item as for instance 'drama', 'song' etc.

37 A performance license may in the discretion of the licensing officer be granted either for a performance at a single place of amusement or for all or any places within the area for which he is the licensing officer.

38 Every person applying for a performance licence under these rules shall, unless specially relieved by the licensing officer from liability to this rule, submit a copy of every stage play intended for production or exhibition to the licensing officer atleast three days previous to the intended time of such production or exhibition.

Provided a person applying for a performance licence for a Tamasha performance shall also submit to the licensing officer for performance a certificate of suitability granted by the Board in respect of the script of that performance.

39. The licensing officer may refuse or after granting may withdraw, or cancel licence to perform or exhibit any or all of the plays or exhibitions mentioned in the application, if he considers them :

(a) to be indecent or of a scurilous character ;

(b) to contain offensive personalities ;

(c) to be likely to wound the religious feelings of any class of individuals ;

(d) to be seditious or to be likely to excite political dis ontent ;

(e) to promote hostile feelings between different classess ;

(f) to be calculated to cause a breach of the peace ; or

(g) to be objectionable on any ground other than those specified in (a), (b), (c), (d), (e) and (f).

2. The licensing officer shall specify in his order of refusal or withdrawal upon which of the above grounds such order is passed and in the case of an order passed on ground (g) shall in such order the reasons which lead him to consider the play or the exhibitions as the case may be objectionable.

40. The licensing officer for performance shall suspend or cancel a performance licence for tamasha performance if the Board suspend or cancel the certificate of suitability granted by the it in respect of the script of the performance.

41. A performance licence may be granted for any period not exceeding beyond the 31st day of December of the year for which it is issued.

42. No person holding a performance licence under these rules shall during any performance or exhibition permit on the stage :—

(a) any protanity of impropriety of language ;

(b) any indecency of cross, dance or gesture ;

(c) any offensive personation or representation of any individuals ;

(d) anything calculated to produce riot or breach of the peace or to promote hostile feelings between different classess or to wound the religious feelings of any individual or class of individuals ;

(e) any thing calculation to excites feelings of seditious or political discontent ;

(f) any dangerous exhibition or performance with wild beasts ; or

(g) any performance involving risk, damage or danger to the public.

43. (a) If at any time it appears to a licensing officer, who may present at any performance in any licensed premises that the performances is or is about to become, objectionable he may direct the licencee to stop or alter the performance.

(b) If at any time it appears to a police officer not below the rank of a Sub-Inspector who by a general or special order of the District Superintendent of Police or the licesing authority is required to attend a performance (no licencing officer being present on the premises), that the performance is or is about to become objectionable, he may direct the licensee to stop or alter the performance, pending the decision of the licensing officer on that point.

44. No person shall continue any performance after 12 midnight :

(a) if any place of public amusement except a theatre, situated in a local area in which the Mysore Shops and Commercial Establishments Act, 1961, is in force.

(b) in any place of public amusement in any local area in which the Mysore Shops and Commercial Establishments Act, 1961, is not in force except with the special permission of the licensing authority.

45. No smoking shall at any time be permitted within the enclosure.

GENERAL

46. Every licence whether for premises, for a performance or for a part of a performance may be cancelled by the licensing officer for contravention of any of these rules by the licensee.

47. the licensing officer concerned may in his discretion and for good reason, exempt any licensee from any of the requirenments of these rules.

48. Any order passed by a licensing officer for premises or by licensing officer for preformance, shall be subject to revision by District Magistrate, unless such order is passed by the said authority himself as a licensing officer.

SCHEDULE "C".

(See Rule 27).

Regulation for the protection of Theatres., etc., from Fire.

1. Sanction of the Electrical Inspector to Government to be obtained for all electrical works.—Before the installation of the Electric light of any electrical apparatus and before any alterations or additions to the electric installation are commenced the sanction of the electrical Inspector to Government shall be obtained through the District Magistrate and for this purpose plans showing the approximate position of lights, fans, etc. and Specifications giving full particulars of the proposed work shall be forwarded to the Electrical Inspector to Government to whom complete drawings shall also be sent on completion of the work.

2. Definitions.—In these regulations the term "High Pressure" shall apply to all voltages above 650 volts.

3 *Inspection and Test*.—Where an Electric light, fan or other apparatus is installed in such permises; it shall be on condition that the Electrical Inspector to Government or his Assistant shall certify in writing to the District Magistrate once in every twelve months that the system is in proper working order. Inspection and tests may also be made by any Officer appointed by the Electrical Inspector to Government from time to time.

4 *Main Circuits*.—All such permises when lighted by the electric lights shall have preferably three separate and distinct main circuits and these circuits shall be :

(*A*) for the stage ;

(*B*) and (*C*) for the auditorium, corridors, exits and other parts of the house open to the public.

The circuits (*B*) and (*C*) shall be arranged that the light in the auditorium, corridors, exits, etc., shall as far as possible equally distributed on the two circuits.

The Two circuits (*B*) and (*C*) shall not be combined in one fitting nor shall the wires or leads for one circuit be placed in the same casing or tube as those of the other circuit ;

5 *Sub-circuits*.—(*a*) The main circuits (A), (*B*) and (*C*) shall be sub-divided as may be necessary and no sub-circuit shall be allowed to carry more than 5 amps in the case of auditorium, corridors, etc., or 20 amps on 230 volts in the case of the stage. Each sub-circiut shall start a distributing board.

(*b*) The main leads etc., for circuit (A) shall, where possible be kept entirely on the stage side of the possecenium wall and those for 'B' and 'C' entirely on the auditorium side of that wall.

(*c*) The lights inside and outside the premises shall be on separate circuits. Circuits for fans power and heating purposes shall be kept distinct and separate from lighting circuits.

6 *Control of Auditorium Lights from Stage*.—If it is desired to control a portion of lights in the auditorium from the stage switch board (Circuit A) this will be permitted if a sufficient number of for safety purpose be maintained on circuits *B* and *C* for each portion of the Auditorium entirely independent of the Stage. The number and position of such lights shall be subject to the approval of the Electrical Inspectors to Government.

7 *Control of Auditorium lights from enclosure*.—In permises used for cinematograph exhibition, it may be permitted to control a portion of the lights in the auditorium by the switches placed in the enclosures provided; these switches are of totally closed metal clad type and associated with fuses of not more than 15 amps capacity at a pressure not exceeding 230 volts. The number and position of such switches shall be subject to the approval of the Electrical Inspector to Government.

8 *A. C. 3 Phase or D. C. 3 Phase Wire System*:—Where supply is available, on 3 phase A. C. system the circuits A, B, and C shall be supplied from three different phases, but where the supply is given on D. C. 3 wire system the circuits B and C shall be supplied from two different sides and all lights, fans and other electrical apparatus on the stage shall be connected to one side only in commmon with either B or C.

9 *Source of Supply*:—(*a*) The supply from the three main circuits may be taken from independent sources of suppply but in such cases Special precaution must be taken to prevent accidental connection of different circuits.

(*b*) Change over switches may be used which have been previously approved by the Electrical Inspector to Government.

10 *Auxiliary supply for Exit Signs*. Rs (a) all Exit signs shall be fitted with an auxiliary bulb capable of properly illuminating the sign and these bulbs shall be fed from accumulators which shall be in a fully charged condition before the first admission of the public on any day.

(*b*) All lights in the staireases, corridors, passages and Exit notices shall be kept alight during the whole time the public are in such premises.

11 *Torches:*—At least six electric torches of approved pattern shall be kept the premises in proper working order throughout the year and these shall be distributed over the Building so as to be accessible to doorkeepers, etc.

12 *Unlicensed Premises:*—No, unlicenced premises or parts of premises not included in the license shall be supplied with electric current from the mains or apparatus used for the licensed premises.

13. *Dressing Rooms* : Dressing rooms and other parts of the premises used by the staff shall be lighted to the satisfaction of the Electrical Inspector.

14. *Gas and Water Pipes* :—Gas and water pipes shall never form part of any electrical circuit.

15. *Conductors* : (*a*) All conductors to the buildings shall be of tinned copper having conductivity equal to not less than 90% of that of pure copper and shall be so proportioned that the current density in any conductor shall not exced 1000 amps. per square inch.

(*b*) Where a number of lights as in the feet lights, battens, *etc.*, are supplied under control of one switch and protected by a single or double pole Cut out as the case may be the conductors shall be maintained throughout of such sections that will be effectually protected by the cut-outs against heating.

16. *Insulation* : (*a*) All Conductors shall be properly insulated and the insulation resistance shall not be less than 600 Megohms per statute Mile at 63 F after one minute's electrification when tested at 400 volts and after 48 hours immersion in water.

(*b*) If it is desired to use any other conductor or insulation than as specified in these Regulations, special permission shall be obtained from the Electrical Inspector to Government and no material shall be used which is not water proof or which is not protected by water-proof covering or which will soften at a temperature below 170 degree Fahr.

17. *Conductors etc., Special Precautions* : No metal working connection with the circuits shall be exposed or so fixed or constructed as to be liable to cause a short circuit. In all cases conductor conveying current at high pressure inside buildings shall be specially insulated. They shall be enclosed in screw jointed and earthed iron or steel tubing Armoured cable may be used for the supply company's Service.

18. *Joints* :—Joints in conductors shall be avoided as far as possible when unavoidable they shall be electrically and mechanically perfect. Soldering fluids shall not be used in making such joints and no joints shall be made in metal conduct.

19. *Conductors fixing and Potection*;—(*a*) All conductors including lead covered cables where accessible to the Public shall be effeciently protected from mechanical injury by an external armour of iron or steel.

(*b*) Where conductors pass through or within walls, fire proof or ceilings, they shall be protected by iron pipes or by glazed stone ware or precelain tubes and precautions shall be taken to prevent the possibilty of fire or water passing along the course of the conductors.

(*c*) Conductors must not be placed where liable to be heated by jets, steam pipes or other appliances.

(*d*) In special cases: or where necessary for protection from the depredations of rats, mice or other vermin. the wiring shall be enclosed in heavy gauge steel conduct.

20. *Petrol Engines*:—No petrol driven engine shall be allowed for generating electric current unless it is fixed in a fire proof compartment at least 10 feet from any other building.

21. *Wiring in casing*:—If casing be used it shall be of hard teak wood. Each conductor shall be laid in a separate groove, unless previous permission be obtained from the Electrical Inspector to Government to vary this condition. In no circumstances shall be wires of unlike polarity be laid in the same groove, nor wires of the same polarity, belong to the different circuits, A. B. or C. The cover shall be secured with screws. Casing shall not be used where it is liable to injury from weather or leakage of water, nor shall it be recessed into plaster.

22. *Metalic tubing for Mechanical Protection* :—Where iron pipe or tube is used as a mechanical protection, it shall be bushed where necessary and properly bushed inspection boxes shall be used. All metallic tubing shall be effeciently earthed and shall be provided with screwjoints or other means of ensuring a good and permanent electrical connection which must be continuous with boxes and other fittings.

23. *Stage lighting*;—Special care shall be taken that all works in connection with the lighting of the stage are carried out in as substantial a manner as possible, preferably in heavy guage screwed metal conduct.

24. *Stage Switch Board*:—(*a*) A switch board fitted with the necessary switches. cut-outs and other fittings for the control and regulation of the stage lighting shall be fixed in some convenient position overlooking the stage.

(*b*) Connections shall be made where possible at the back of the board and there shall be space of not less than 3' between the wall and the back of the board or such larger space as may be necessary to ensure the thimbles and connections being at the times easily accessible, or as an alternative in the case of wires not larger than 7/18 S. W. G. provision may be made by hingeing the board for rendering the back of the board accessible.

25 *Footlights etc*:—Lamps on battens, footlights etc., shall be properly protected from everything liable to cause short circuit and shall be protected by stiff guards so arranged that no scenery or other inflammable material can come in connection with the lamps.

26 *Resistance* (a) Resistance frames shall be made entirely of fire resisting material and shall be so constructed and maintained that no outside part shall at any time become unduly heated. The resistances shall not be permitted to become so over heated that a piece of dry newspaper placed in contact with any part would readily burn.

(*b*) All resistances with the exception of the resistance for regulating purposes shall be placed outside the enclosure and preferably outside the auditorium. They shall be adequately protected by wire guards or other efficient means of preventing accidental contact.

27 *Fire Extinguisher etc.*—(*a*) Two pressure type fire extinguishers two buckets of water, one bucket of sand and a blanket shall always be kept inside the enclosure. A large sponge shall be kept in one of the buckets of water and one fire extinguishers shall be kept immediately outside the enclosure.

(b) At least one bucket filled with dry sand must be kept in some accessible position on the stage in readiness for use in the dealing with electric fire.

28 *Plug sockets for the stage*:—The plug sockets for the stage shall be of bakelite or similar fireproof material and of specially substantial construction.

29 *Leads to battens etc*:- The leads to battens and movable length shall be specially guarded particularly at the points where they join on to the battens, etc. and a sufficient length shall be allowed to prevent the leads receiving any injury through any movement of the battens. The part of the leads shall be protected by stout canvas hose properly fixed and the battens shall be suspended by atleast three ropes.

30 *Arc Lamps*:—(*a*) In any such premises arc lamps shall not be used in the auditorium or in any part open to the public without permission from the Electrical Inspector to Government. When they are used in any part of the premises special precautions shall be taken to guard against danger from falling glass and incandescent particles of carbon. All part of the lamps, lantrens and fittings which are liable to be handled (except by the persons employed to handle them) shall be insulated from frame work.

(*b*) Any exposed portion of metal work of an arc lamp liable to become heated to a temperature sufficient to cause a conflagration by contact with scenery or other inflammable material shall be protected by a wire guard.

In no case shall be arc lamps suspended by the conductors.

31 *Cut Outs*:—(*a*) All circuits shall be efficiently protected by cut-outs placed in position easily accessible to the staff, but inaccessible to the public. All cut-outs shall be of such pattern and be fixed in such a position as to admit of quick replacement.

(*b*) All cut-outs shall be so constructed that falling fused metal cannot be cause a short circuit or an ignition.

(*c*) All switches and cut-outs shall be so marked as to show clearly which circuit or lamp they control.

(*d*) All switches, cut-outs, ceiling roses, wall sockets lamp holders, etc., shall have non-inflammable bases and covers. All switches and cut-outs shall have sufficient length and breadth and shall be constructed so as to prevent the risk of formation of an arc.

(*e*) All switches shall be of ample size to carry the current for which they are intended without heating and shall be so constructed that they shall not remain in any position intermediate between the 'on' and the 'off' position so as to permit of an arc or short circuit.

32. *Fitting*.—(*a*) All fittings shall be suspended in an approved manner and special care taken to avoid risk of the suspension falling from any cause.

(*b*) Combined gas and electric fittings shall not be used.

(*c*) Any electric light pendants or brackets in the auditorium and front of the house generally shall be atleast 8 feet above the floor to the lowest projecting part of the fittings. No electrical fitting or apparatus of any description shall be so fixed or arranged as to interfere at any time with the proper working of the safety curtain.

33. *Switch and fuse Board.*—(*a*) All switch and fuse boards which are not fitted with front connections shall be so mounted as to give instant and easy access to the connections at the back of the board and shall be provided with dividing strips between poles both at the back and in front and proper lock up cases with glass or metal fronts. The glass (unless of adequate thickness) shall be protected with a wire guard or alternatively boxes with lids and sides rendered fire proof by asbestos sheeting may be used.

(*b*) Switches and fuse boards shall be fixed in accessible places where they will not obstruct any passage or exit.

34. *Generating plant:*—Where the supply of current is derived from special plant on the premises, such plant must in all cases be approved by Electrical Inspector to Government.

35 *Boilers, Gas Engines, etc.*,—(*a*) Boilers, Gas Engines, steam engines and dynamos when used for the supply of electricity to such premises shall be placed in such position as shall be sanctioned by the Electrical Inspector to Government. All necessary provisions shall be made for keeping the temperature of the engine rooms within proper limits.

(*b*) Oil or gas engines shall be placed in buildings adequately and continuously ventilated so that no explosive mixture of gas can accumulated.

36 *Accumulator* :—Accumulators shall be placed in rooms adequately ventilated to the outside air. These rooms shall be of fire-proof construction with fire-resisting doors and shall be used for no other purposes.

37. *Transforming and converting Machinery* :—(*a*) Transforming and converting machinery with the controlling switches and cut-outs shall be placed in a fire proof and water proof structure, adequately ventilated to the outside air properly lighted and accessible to the management and shall be used for no other purpose.

(*b*) No transformer which under normal conditions of load heats to above 130 degree Fahr. Shall be used and the transformer circuits shall be so arranged that in no circumstances may contact between the primary and secondary coils be established.

38 *High Voltage* :—Where the primary current is of high voltage, no part of such apparatus of the central therefor shall be accessible to any body except the person in charge of its maintenance.

39. *Earthing of covers* :—The metallic covers of all transformers switches and other electrical apparatus shall be efficiently connected to earth.

40. *Insulation Resistance* :—The insulation resistance of system of distribution shall be such that the greatest leakage from any conductor to earth, when all branches are switched on, shall not exceed 1/50th part of the total current required, the test being made at approximately double the usual working pressure, provided that this rule shall not be held to justify a lower insulation resistance than 10,00 Ohms.

41. *Motors etc.*,—All motors and electrical apparatus shall, if permitted, be subject to special conditions, but electric fans and similar motors not taking more than 30 watts may be used, if separately wired, from fuses on a proper distributing board.

42. *Plan of Wiring*.—A framed diagram indicating clearly the arrangement of all circuits and sub-circuits of the electrical installation the position of distribution boards and the size of cables shall be displayed in the premises and shall be kept upto-date.

43 *Temporary lighting.*—(a) In all cases in which it is desired to instal temporary lighting, seven days notice shall be given to the Electrical Inspector to Government in writing before it is desired to commence the work.

(*b*) Wires and cables shall be adequately and firmly fixed and shall be similar to the wires already specified in these regulations and in all cases where the wires are within reach of the public they shall be efficiently protected from mechanical injury by an armour of iron or steel.

(c) All points shall be soldered and taped if used for more than one week and if used for less than a week the wire shall be covered larger than 7-20 S. W. G. or its equivalent. In either case the joints in portable fittings and special appliances shall be taped.

(*d*) All temporary work shall be immediately removed when no longer required for the purpose for which it was installed In the case of temporary work on the stage, all connections to the permanent installation shall be removed immediately after the performance in which they are used unless permission be obtained to the contrary. Such special conditions as may be required in each case will be attached to the consent of the Electrical Inspector to the use of temporary electric work.

44 *Safety curtain.*—Whenever the safety curtain is lowered, all lights in the auditorium etc., shall be immediately lighted.

45 *Relaxation by Electrical Inspector*—The electrical installation in such premises shall be carried out to the satisfaction of the Electrical Inspector, who may in writing recommend to the District Magistrate that any of the provisions of these regulations may be relaxed to such extent and subject to such conditions as he may consider expedient.

46 *Shock Treatment Instructions and Insulated Gloves*:—Instructions both in English and in the local language of the district for the restoration of person suffering from electric shock shall be affixed in a conspicuous place at least one pair of India rubber gloves in good order shall be provided for use of the electricians.

47 *Miscellaneous*:—All main switches, fuses, etc., such are the property of the Electric supply company must be distinguished by red colour and every apparatus which is to be operated by authorised persons only must be made completely in-accessible to the public.

M. CHITTARANJANADAS,
Dy. Commr.
and District Magistrate, Chikmagalur District.
